LOT 900 - 2.5" Tartarian Hotwings Maple, 10'

Description

2.5" Tartarian Hotwings Maple, 10'

A beautiful, ornamental tree that is well suited for small home landscapes. The slender branches form an upright oval canopy. Although the flowers are not noticeable, by midsummer brilliant red seed capsules (samaras) cover the tree. These samaras provide a spectacular show of color, persisting for about a month. The mature height and width of this tree is about 15 feet by 15 feet. This tree is grown at elevations of 8,000 feet or lower.
