LOT 611 - Northern Acclaim Honey Locust, 15-16' tall, 2.5" Caliper

Description

Northern Acclaim Honey Locust, 15-16' tall, 2.5" Caliper

A thornless, seedless cultivar of the native honey locust tree, known for its strong winter hardiness and ability to thrive in urban environments. It has an upright,

spreading form, fine-textured foliage that turns a golden-yellow in the fall, and grows to about 40-50 feet tall with a 30-35 foot spread

Quantity: 1
