LOT 256 - Prairifire Crabapple Multi-Stem 7'

Description

Prairifire Crabapple Multi-Stem 7'

Prairifire Crabapple - This disease resistant crabapple has purple to red leaves that turn to a green color with a red cast. Opening from pinkish-red buds, masses of slightly fragrant, dark pink to red flowers appear in mid-late spring. The flowers become small,

dark red-purple, persistent fruit, but THE FRUIT DOES NOT DROP! This tree grows about 18 feet tall, 12 feet wide and can not grow at elevations above 7,500 ft.

Quantity: 1
